Resume

EDUCATION

- Avantika University

Bachelor of Design
(Industrial Design)

2024 - 2028

- Amity International School
(Senior Secondary School)

2016 - 2024

Intrests

- Exploring new products and product innovations
- Illustration and visual storytelling
- Sketching and concept drawing

SKILLS

Design

- Product Design
- Form Development
- Ergonomic Analysis
- User-Centered Design
- Design Research

Methods

- Sketching
- Rapid Prototyping
- CAD MODELING
- BRAINSTORMING
- Product Benchmarking
- Ideation & Concept Development
- TEAM MANAGEMENT

Software

Fusion 360
Rhino
KeyShot
Adobe Photoshop
Adobe Illustrator

MONOTICK

Minimal Timepiece Concept

01. Design Brief

ONE MOMENT AT A TIME

Instead of displaying time through conventional hour and minute hands, MONOTICK explores a single dominant movement as the primary visual cue.

DESIGN LANGUAGE

Layered depth

Transparent and recessed surfaces create visual depth without adding ornament.

Minimal geometry

The form is reduced to essential circular and linear elements.

Controlled contrast

Subtle tonal differences guide attention toward the interaction.

02. Ideation & Development

READING TIME DIFFERENTLY

MONOTICK challenges the conventional visual language of a watch by shifting attention from multiple moving indicators to one primary movement.

INTERACTION

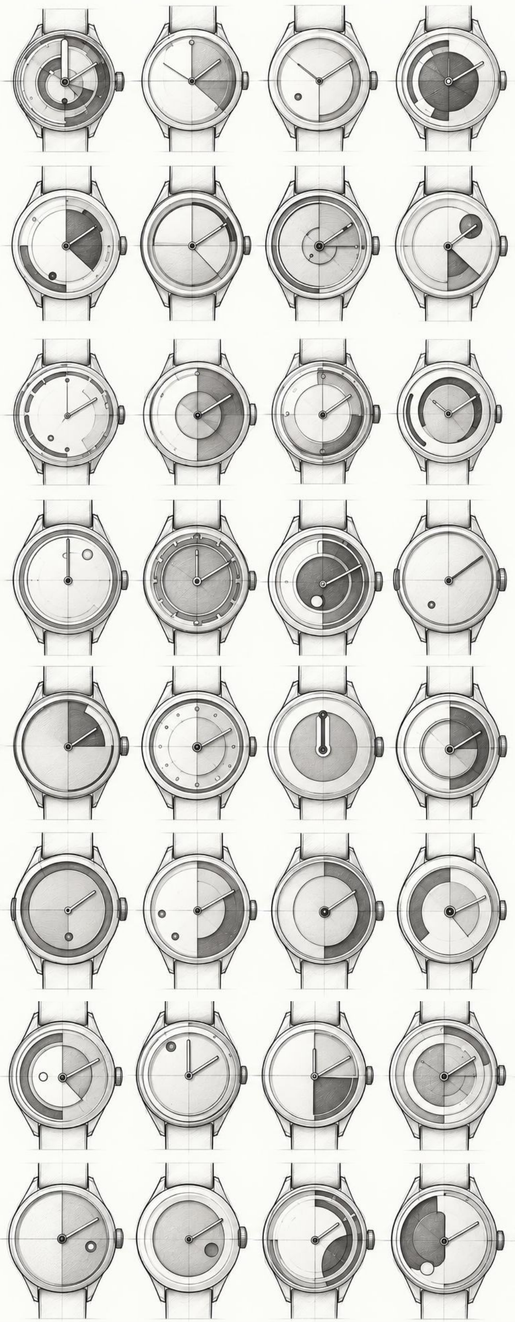

LOOK → OBSERVE → INTERPRET

The absence of traditional ticking hands encourages the user to read the watch through position, movement and visual relationships rather than relying on conventional time markers.

FORM

Layered circular construction with a transparent outer body creates depth while keeping the interface visually minimal.

MATERIAL

Transparent housing paired with a soft-touch strap creates a balance between technical precision and everyday wearability.

COLOUR

A restrained neutral palette allows the form and movement to remain the visual focus.

04. Final Outcome

TIME, REDUCED TO A MOMENT.
A Minimal Timepiece That Explores An Alternative Relationship Between Movement, Information And Perception.

Giving Time a Form

01. Design Brief

THREE WAYS OF EXPERIENCING TIME

JALI

Time is Seen
Light . Shadow . Change

SHANKHA

Time is Heard
Sound . Moment . Ritual

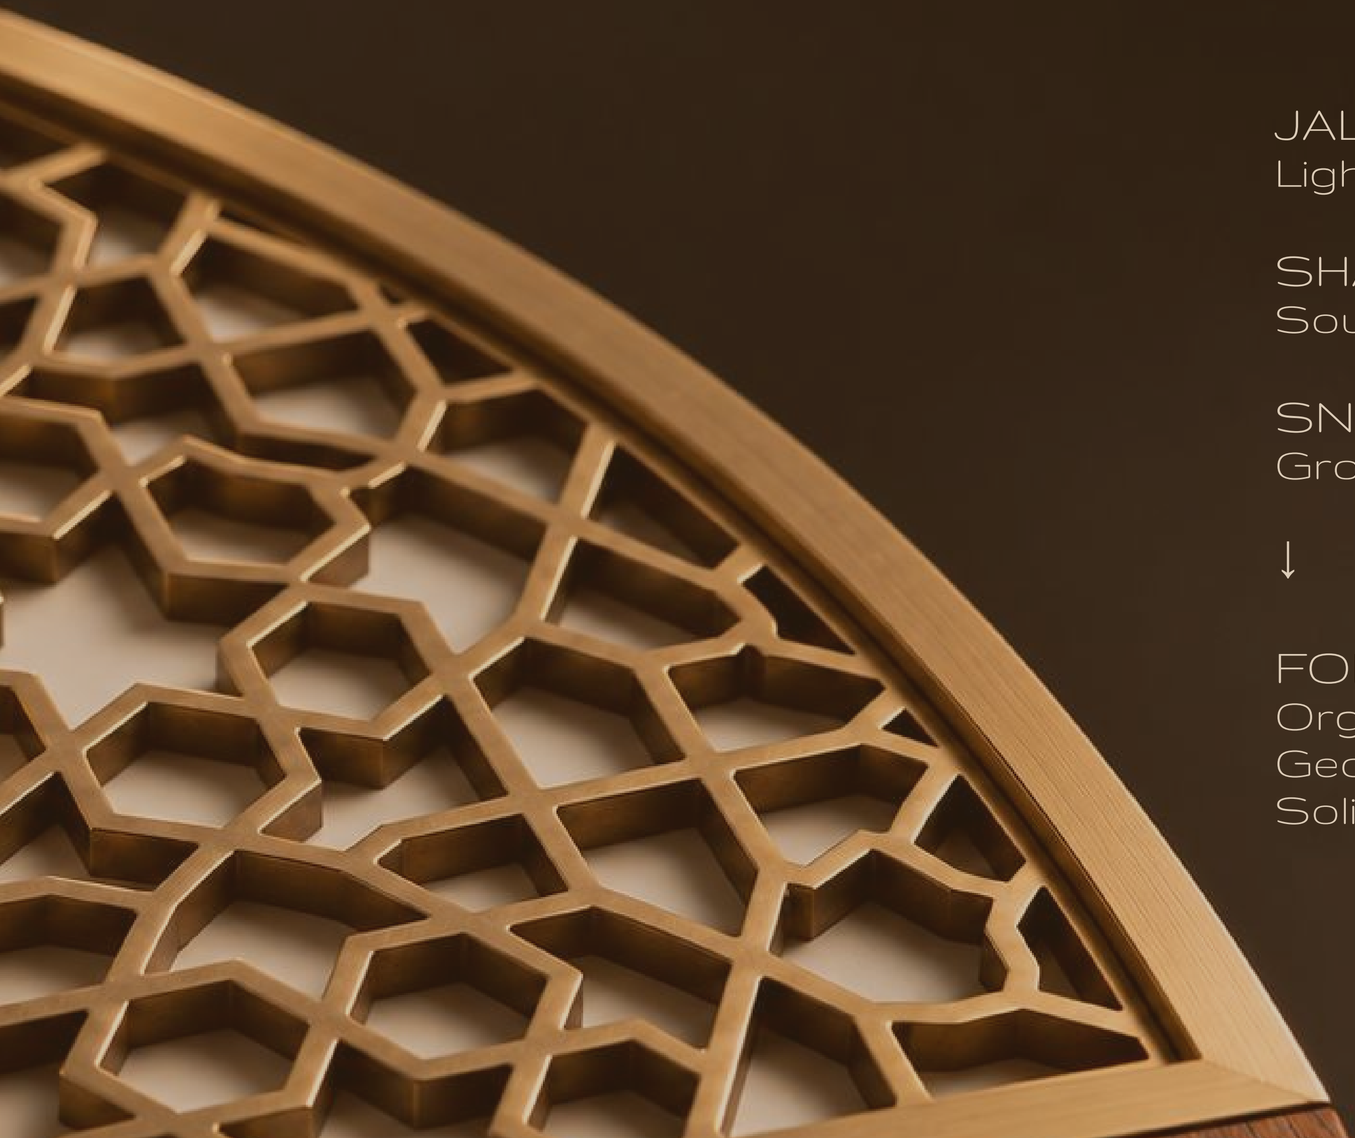

SNAIL

Time is Felt
Pace . Growth . Continuity

TIME CAN BE SEEN, HEARD & FELT.

02. Ideation & Development

03. MATERIAL LANGUAGE

WOOD
Warm · Natural · Tactile

BRASS
Precise · Refined · Crafted

JALI
Solid · Void · Shadow

PROTOTYPING
Shape → Cut → Refine → Assemble

Physical making was used to explore proportion, material interaction and the relationship between the wooden body and Jaali.

HERITAGE TRANSLATED, NOT REPLICATED.

The final clock brings the three references together through form, pattern, material and light, translating heritage into a contemporary desk object.

A Moment Of Samay

01. Design Brief

A MOMENT OF SAMAY

NIMI carries forward SAMAY's exploration of time, light and heritage, transforming the idea into something personal and wearable.

JALI

Pattern · Light · Shadow

CONCENTRIC FORM

Continuity · Movement · Time

MATERIAL

Warmth · Precision · Craft

02. Ideation & Development

HERITAGE, ABSTRACTED.
A contemporary watch face combines a restrained geometric layout with a Jali inspired perforated band, creating contrast between solid and void.

CIRCULAR FORM
A visual representation of continuity.

JALI DETAIL
A connection to Indian architectural craft.

METALLIC FINISH
Precision with a crafted character.

03. CAD & CMF

TIME, MADE PERSONAL.
Where SAMAY observes time as an experience,

NIMI brings that experience closer —
onto the wrist.

SEE → WEAR → EXPERIENCE

04. Final Outcome

A Moment of SAMAY

A contemporary timepiece rooted in heritage, shaped by minimalism, and designed to make every moment feel intentional.

Designing Objects That Make Everyday Moments Worth Noticing.
